// Living Responsibility!

This is more than just our slogan.
It's our daily motivation.

At Seracell, we understand responsibility as a commitment to life itself – in every step of our work – from the collection and manufacturing of cell preparations to their storage and delivery.

For us, living responsibility means being there for our partner clinics and their patients at all times, working with the utmost care, adhering to the highest quality standards, and making conscientious decisions.

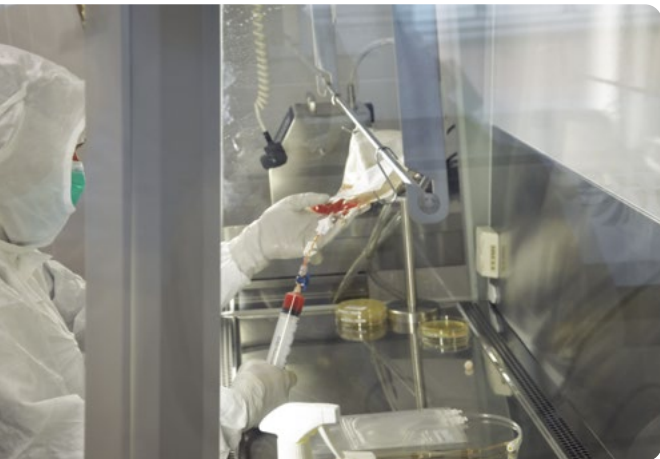

We always work according to the latest medical science and technology. In this way, we are supporting the medicine of tomorrow already today!

Seracell Pharma

Seracell Pharma is a **pharmaceutical company** based in Rostock, Germany, which has been working according to the highest quality standards in the field of **human stem cells and immune cells from blood since 2002**.

Cleanrooms

For the professional processing of cell preparations, we operate **four state-of-the-art cleanrooms of GMP class B** on 250 m².

Quality Control

To ensure quality, our staff uses state-of-the-art equipment. We perform **flow cytometric analyses**, create blood counts, and check cell preparations for **microbial contamination**.

Tank Storage Area

On over **300 m² of logistics and storage space**, we operate 52 cryotanks for the long-term storage of cell preparations. Storage takes place at temperatures below $-170\text{ }^{\circ}\text{C}$ in the gas phase above liquid nitrogen. The cryotanks are filled fully automatically and monitored around the clock.

Our Expertise

Seracell has been manufacturing cell preparations in accordance with the German Medicinal Products Act since 2002 and holds all necessary licences and approvals. We have also been certified as a **GMP manufacturer** since 2008. Furthermore, Seracell has been accredited by **JACIE** since 2013.

Facility

>20

Over 20 years of experience in the manufacturing and cryopreservation of cell preparations

>100.000

Over 100,000 cell preparations in cryopreservation

>2.600

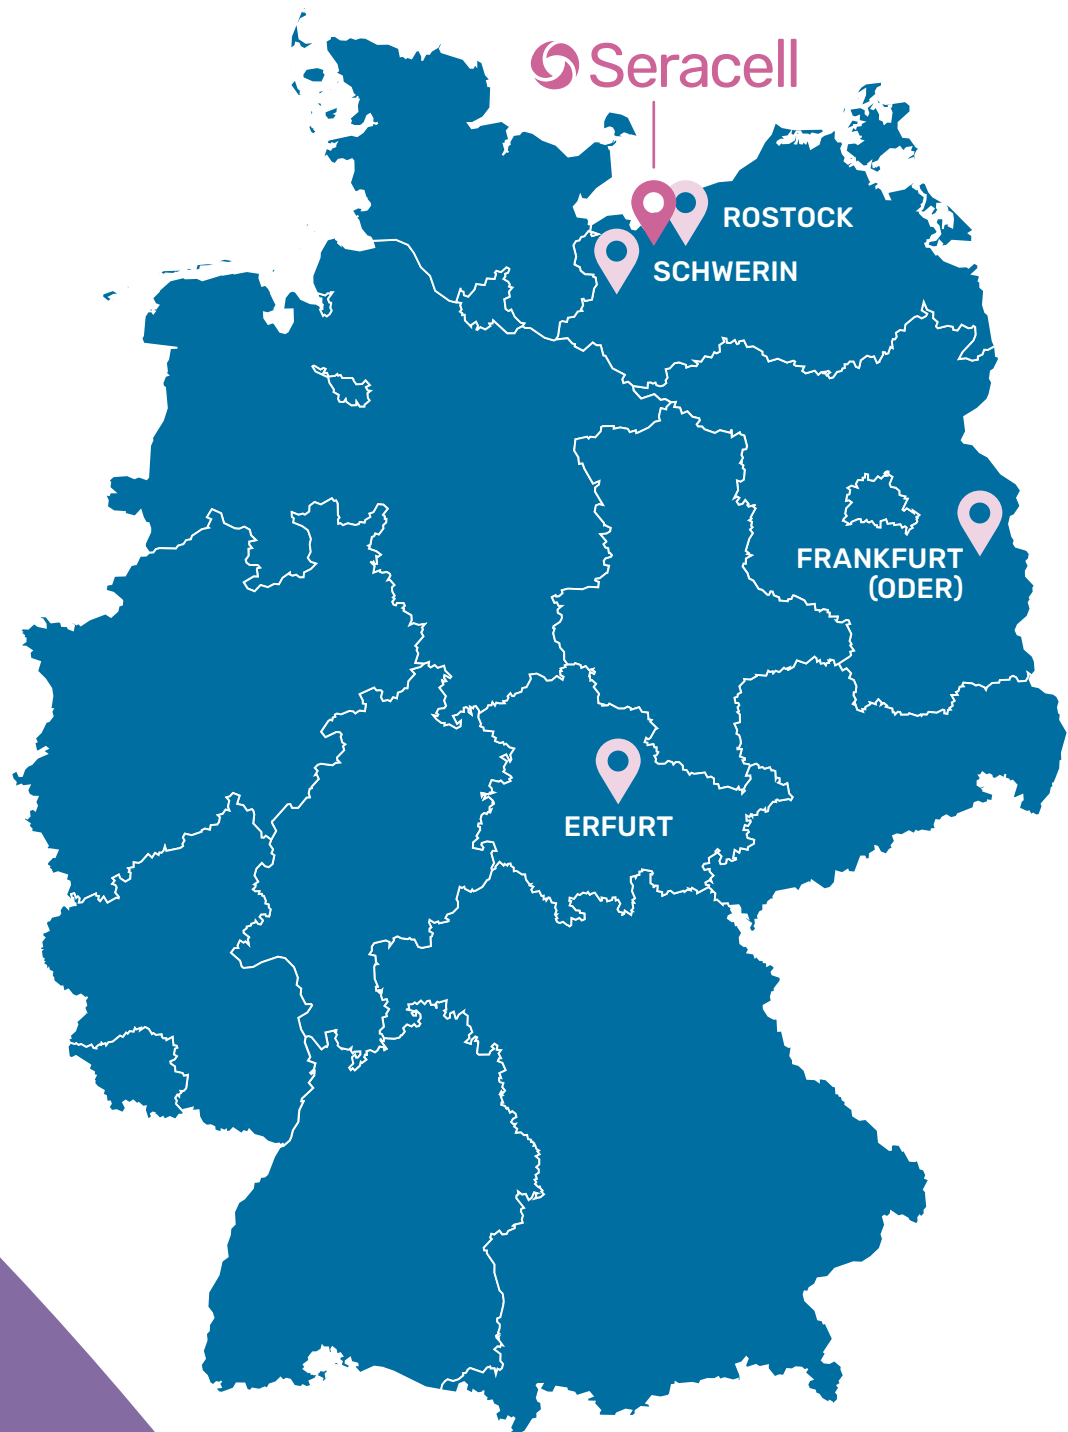

Over 2,600 successful transplants

>1.700

Over 1,700 patients treated

Our Network

For years, we have maintained successful and trusting partnerships with **medical institutions** that perform stem cell therapies, immunotherapy, and CAR-T cell therapies. The cell preparations are obtained, manufactured, and, if necessary, cryopreserved and stored on behalf of the respective clinic and **according to its requirements**.

Your Service Provider

We live responsibility every day when servicing **our partner clinics and their patients.**

We provide:

- complete solutions or individual service modules
- even on short notice and temporarily
- precisely according to your specific requirements

We are pleased to be **your service provider!**

Your benefits:

Seracell handles the **entire process** of obtaining, manufacturing, storing, and providing cell preparations for you, or provides **individual service modules.**

We make our full range of services available to you **also at short notice and temporarily** to bridge capacity shortages.

We provide our services entirely **according to your requirements** and in **ongoing close consultation** with the treating physicians.

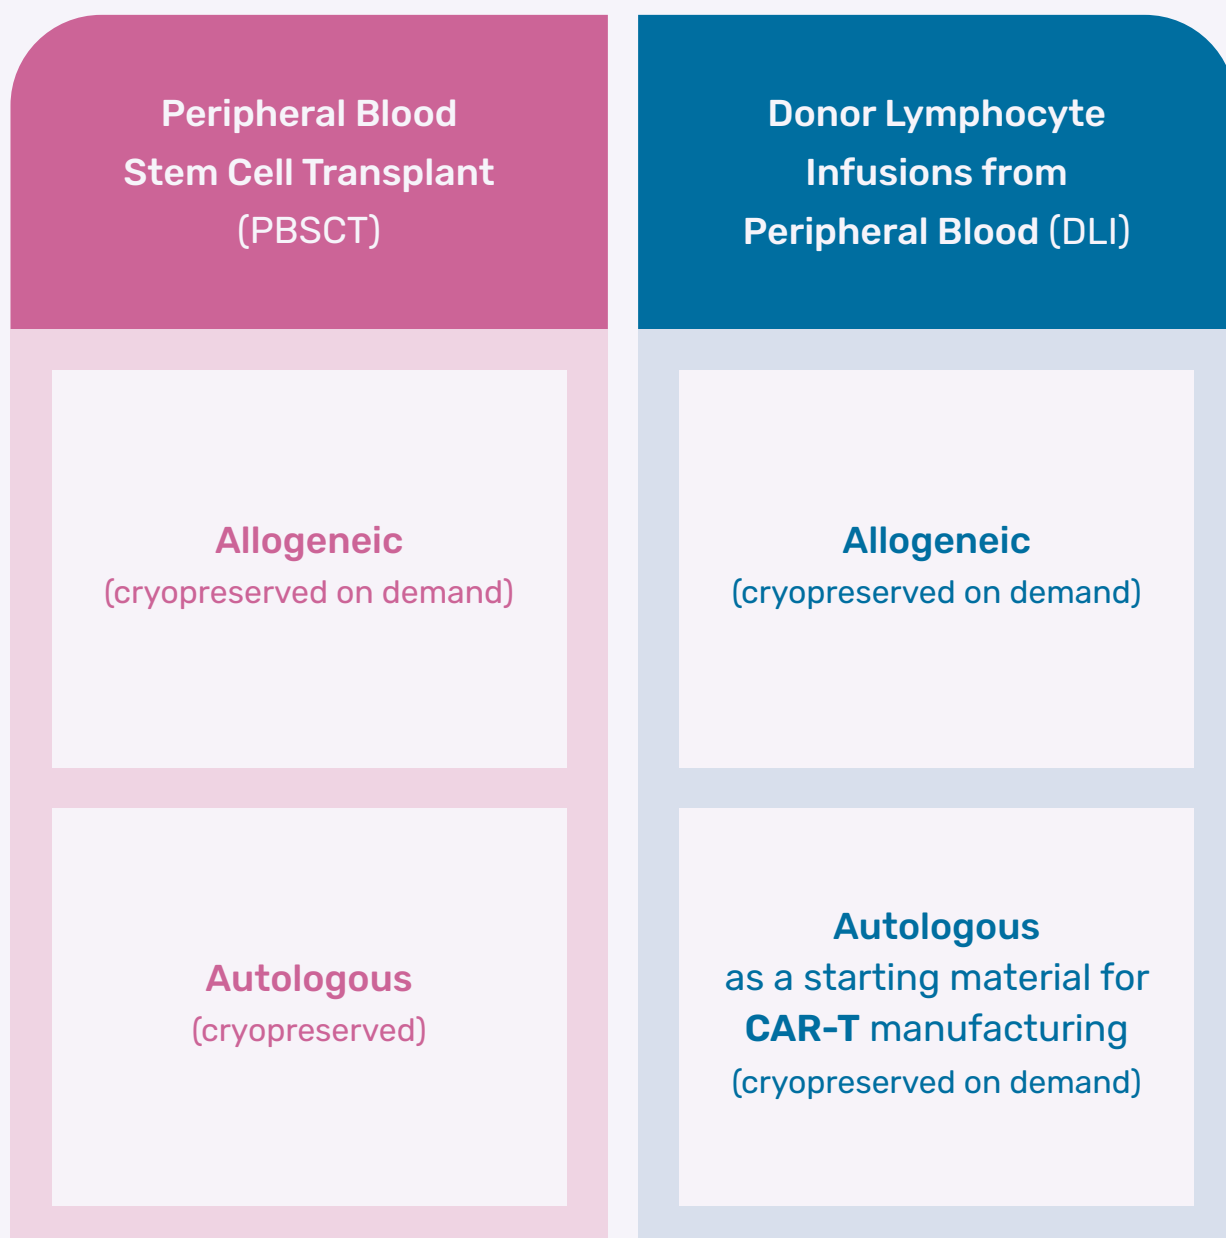

Our team is characterized by high **quality standards**, a strong **service orientation**, and a high sense of **responsibility.**

Seracell Products
